Subject: FW: For Tues. call with FS and EPA HQ -- Draft risk assessment task summary, timeline and matrix
Attachments: Prop for collab risk review.docx; Risk matrix v1.docx
Categories: EPA

Hi Angeles – Attached are the materials for Susan et al for tomorrow's call. I think these are ready to distribute, with the acknowledgement that these products are a preliminary framework we were asked to generate with 6-day turnaround, so expectations should be calibrated. I think it's enough to go on, however, for OFA and FS to understand what we're asking for and about how long we think it would take.

Thanks – Jason

Subject: RE: Draft risk assessment task summary, timeline and matrix ATTACHMENT WITHHELD – B5

Attached is the draft risk assessment task summary, timeline and matrix. Liz, Rich and I had discussions yesterday in order to produce this draft. Please review in preparation for our meeting this Monday at 9am. Please **do not** distribute these draft materials to anyone else until we have had an opportunity to discuss it at our Monday meeting.

Liz and I also have reviewed the FS materials and we will be prepared to discuss their proposed changes to the EIS Monday morning as well.

Thanks,

Rob
